

FERDNARD BOSIRE OSOTI

SOFTWARE DEVELOPER | ICT PROFESSIONAL

0769193340 | frednardosoti45@gmail.com | Kisii, Kenya

PROFESSIONAL PROFILE

Software Developer and ICT professional with practical experience building desktop, web and information-management systems. Skilled in application development, databases, networking, troubleshooting and system design. Interested in creating reliable, practical technology solutions that solve real-world problems while continuing to grow through hands-on development.

TECHNICAL SKILLS

Python	Java	JavaScript	HTML5
CSS3	VB.NET	FastAPI	Node.js
Express.js	SQLite	SQL	Git & GitHub
Networking	Hardware Troubleshooting	Database Management	System Design

EDUCATION

Diploma in Information Communication Technology (ICT) — Kisii National Polytechnic

2023 – 2026

SELECTED PROJECTS

• Insurance Alert System

Python, FastAPI, SQLite, SendGrid and APScheduler. Officer/client authentication, policy and vehicle tracking, automatic expiry alerts, notifications, reports and CSV import/export.

• SmartPOS

.NET and SQLite point-of-sale system covering product management, inventory, sales processing, payment methods and receipt generation.

• Church Choir Management System

Node.js, Express.js, SQLite, HTML and CSS. Web application with administration features for members, songs, activities, services and gallery content.

• Advanced Java Chat Application

Java Swing and socket programming desktop chat application with multi-user communication, file transfer, emojis, avatars, private messaging and notification sounds.

• Pharmacy Management System

VB.NET desktop information system for pharmacy information, patient records and prescription-related data.

• Smart Library Management System

VB.NET management application for books, members, borrowing and returning operations.

NETWORKING & IT SUPPORT

- LAN configuration and basic network setup
- Resource and file sharing between computers
- Connectivity and DNS troubleshooting
- Computer hardware troubleshooting and technical support

PROFESSIONAL OBJECTIVE

To contribute to a technology-focused organization where I can apply my software development, ICT, database and networking skills, gain professional experience and continue developing solutions that improve efficiency and user

experience.
